

**REMARKS**

The specification has been amended to correct a minor typographical error on page 2.

A "Version with markings to show changes made." is attached hereto.

Prompt and favorable action on the merits is earnestly solicited.

In the event that this paper is not timely filed, Applicants respectfully petition for an appropriate extension of time. The fees for such an extension or any other fees which may be due with respect to this paper, may be charged to Deposit Account No. 01-2340.

Respectfully submitted,

ARMSTRONG, WESTERMAN & HATTORI, LLP

Attachment: Version with markings to show changes made

Q:\FLOATERS\KHS\011424 Preliminary Amendment.frm

**VERSION WITH MARKINGS TO SHOW CHANGES MADE**  
**Serial No. 09/926,395 (unofficial)**

**IN THE SPECIFICATION:**

**Please replace the paragraph on page 2, starting with line 5 with the following:**

In the course of such researches and developments, there have been proposed single-layer films composed of a norbornene addition polymer and laminated films obtained by laminating a norbornene addition polymer layer and a polyolefin resin layer on each other (Japanese Patent Application Laid-Open No. ~~72210/1990~~ 72210/1996, and the like. Typical norbornene addition polymers include addition polymer of a norbornene monomer and ethylene, which are resin materials having no possibility that generate substances such as dioxin and environmental hormones, which exert an adverse influence on life environment and living bodies, may be produced, like polyolefin resins such as polyethylene.
